**Regarding WW111 And Informing the Prime Minister**

**Dear Director**

Please find enclosed the following stories for you and your people to read there, as of now your organization is a failure you were suppose to prevent this from happening and fail, sat on your backsides letting America create the next New Enemy in the “WAR On Terror” which has been a pretext to lead us into WW111 in any case.

These Terror Groups were started by the Puppet Masters of United States of America and their servant USA which will be deployed now all about the World to invade countries, over throw countries including Australia and deliver them to the NEW WORLD Order people those who want A One World Government.

That's what this all has been about A One World Government and both political Parties signed on to it, which you let happen right under your noses instead of arresting those criminal politicians who were selling Australia and the Australian people out you just let them do it.

Oh well recriminations are of no help now, you have the only first option left informed the Prime Minister Tony Abbott, Security of Cabinet people, State Premiers, State Police Terrorism and Counter Terrorism Units and Australian Federal Police and Australian Military.

That WW111 has started and this is what ISIS and ISIL will be used for to start and draw into a big **"Vortex"** World War, with the Judaism and Islam destroying itself and pulling Russia and China into it and the winners for the third time being International Zionist Bankers and Globalist including the Security and Military Industrial Complex they will clean up.

I am sorry all I can do is shake my head, what did you people do?

Instead of protecting us you help these criminal, corrupt people politicians both sides of politics sell Australia down the river.

All the great people from the past warned us all, but you along with many others just laughed and called us all Conspiracy Theory people, nutters.

I was just watching two videos today and it says it there in black and white there will be Three World Wars, it even says who the Third War will be against and where it will take place in the Middle East and even says who will start it all America the Great Satan of a Nation its turned into.

Lastly your second and only option now is to play along and implement Option 2, prosecute anybody Muslims who talk about their Sharia Law rubbish or people like John Howard, Kevin Rudd and Bob Brown, politicians who talk about a New World Order or One World Government anybody who talks.

**Section 2 Political Motivated Violence** talking about the over throw of the system we have already including destroying it and our laws and Governments is against the ASIO Act and Law.

This should calm the waters with any Muslim up rising, and we just sit back and watch all this being played out on the World stage.

Third and final Option left on the table to do is round up all these Radical Muslim Leaders calling for the over throw of our system and lock them up, out of sight and out of mind, you wont have them stirring up the rest of the Muslim population while things take their course.

Prosecute these people under **Section 2 Political Motivated Violence** that will lesson any blowback which might happen here from which might be going on overseas in the Middle East and WW111 as its being played out.

This will be my last letter to you people, those good honest people working there and there is many that share my similar thoughts and feelings which what has been going on but we have just been laughed at called nutters, I will hopefully see some of you on the other side after WW111 is played out, then we have to rebuild what's left in the World and Australia after most of it will be destroyed.

Yours truly  
Lloyd T Vance
